## Public Releases

Extraordinary doesn't even begin to describe 2020 and what a year it has been. As Bitcoin rounds out the year flirting with \$30k, we want to take a moment to thank each and every one of you for your continued support this year. Without you, we wouldn't be here.

## Happy New Year Wishes, November/December Research Recap: The Delphi Debrief

Extraordinary doesn't even begin to describe 2020 and what a year it has been. As Bitcoin rounds out the year flirting with \$30k, we want to take a moment to thank each and every one of you for your continued support this year. Without you, we wouldn't be here.

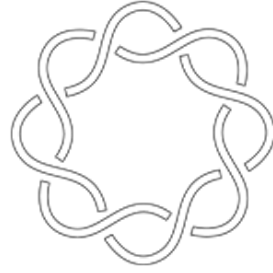

Needless to say, we all expect big things from 2021 and couldn't be more excited for all the things we have planned next year! Given the holiday, we'll keep it brief.

For those of you that want something to sink your teeth into, we are releasing a combined November & December Research Recap covering the best of Delphi over the last several weeks.

### **Delphi Research Recap November/December**

In this edition, we cover a **bitcoin outlook heading into 2021**, an **ethereum ecosystem update** alongside an **exploration of layer 2 rollups**, **Polkadot's growing DeFi stack**, **analysis of public DeFi treasuries**, as well as a broad selection of some of our most popular Delphi Daily notes and podcasts.

We hope you enjoy and look forward to continuing our journey with all of you in the new year!

**Wishing you all a very Happy New Year from everyone on the Delphi Team!**
